1. In Dev C++, Tools -> Package Manager -> Package -> Install Package ->
   Open "conio-2.0-1mol.DevPak" -> Install -> Finish
   Do not Execute "conio-2.0-1mol.DevPak" -> Install -> Finish (If you
   have done this, please uninstall your Dev C++ and reinstall it.)

2. Copy "C:\Program Files (x86)\Dev-Cpp\include\conio2.h" to
   "C:\Program Files (x86)\Dev-Cpp\MinGW64\include\"

3. Copy "C:\Program Files (x86)\Dev-Cpp\lib\libconio.a" and "C:\Program
   Files (x86)\Dev-Cpp\lib\libconio_unicode.a" to "C:\Program Files
   (x86)\Dev-Cpp\MinGW64\lib32\"

4. In Dev C++, Tools -> Compiler Options, chose "Compoiler set to
   configure" as "TDM-GCC 4.7.1 32-bit Release", and Add "-lconio" -> OK
